REPLY TO THE ATTENTION OF:

Ms. Melinda Young  
Tribal Historic Preservation Officer  
Lac du Flambeau Band of Lake Superior Chippewa Indians  
P.O. Box 67  
Lac du Flambeau, Wisconsin 54538

Dear Ms. Young:

Pursuant to Section 106 of the National Historic Preservation Act (NHPA), 16 U.S.C. § 470, et seq., I am writing to notify you that the U.S. Environmental Protection Agency has reviewed a cultural resource assessment related to a construction permit for Pitlik & Wick in Lac Du Flambeau, Wisconsin, to determine what impact there may be on listed or eligible historic properties. Specifically, EPA notified Pitlik & Wick that it is required to implement steps to assure compliance with the NHPA and its implementing regulations. The purpose of this letter is to seek concurrence from you on our determination that the proposed project will have no adverse effect in relation to the Tribal minor New Source Review (NSR) permit for this facility.

Pitlik & Wick has submitted an application to obtain from EPA a minor NSR construction permit for its portable rock crushing plant which will be located in Lac Du Flambeau, Wisconsin (Vilas County). I have enclosed a copy of Pitlik & Wick's September 10, 2013, permit application for your review. Based upon the information submitted and EPA's understanding of the proposed permitting action, EPA finds that the proposed permitting action will have no adverse effect on any listed or eligible historic properties. By this letter, EPA is fulfilling its obligations pursuant to Section 106 of the NHPA for the Pitlik & Wick permitting action. If you have questions with respect to this letter or disagree with this determination, please contact me at (312) 353-4761, or Charmagne Ackerman, of my staff, at (312) 886-0448.

Sincerely,
